PROFILE

iOS Developer based in Moscow with 5+ years of experience in IT, including software development, system analysis, and large-scale banking projects. Skilled in Swift, UIKit, SQL, and DWH systems, with a strong understanding of Agile methodologies. Currently seeking iOS Developer roles with relocation opportunities to the EU, UAE, or Georgia.

EXPERIENCE

IOS ENGINEER, GUILD OF DEVELOPERS — OCT 2024 - PRESENT

- Working on a non-commercial project called "SIS" - an emergency button service designed to help people get out of uncomfortable situations
- Leading a team of 6 iOS Developers
- Integrating our app with backend through Restful API, Moya and Alamofire
- Writing code in Swift + UIKit, actively using patterns like MVVM, Delegate, Singleton and Coordinators
- Doing cross reviews and merging team's pull requests
- Planning tasks and epics
- Negotiating with a client

SYSTEM ANALYST DWH (QA TEAM), INNOTECH — JAN 2023 - PRESENT

- Managing product releases, including scrum artifacts and demos for business users and the cybersecurity department
- Conducting manual and automated testing of new features, ensuring quality and functionality
- Developing, documenting, supporting internal software with Python and AirFlow API
- Using Selenium, Pytest and POM for testing internal software
- Ensuring quality assurance for product releases and hot-fixes
- Creating user manuals and documentation for custom testing instruments.
- Leading onboarding sessions for new employees

SYSTEM ANALYST DWH, DIGITAL ECONOMY LEAGUE — AUG 2020 - DEC 2022

- Data modeled using SAP PowerDesigner, ensuring compliance and integration
- Researched data sources for a new DWH
- Tested news functions using SQL, Python and automated corporate software
- Temporarily led an Agile team and permanently leading release process, such as product demos and scrum artifacts and user documentation
- Conducted manual and automated testing of new features

EDUCATION

- **NETOLOGY — JULY 2023 - OCTOBER 2024**
  iOS Developer, Intensive professional retraining program

- **MIREA (RUSSIAN TECHNOLOGICAL UNIVERSITY) — SEP 2017 - JAN 2023**
  Specialist (Engineer), Information and analytical security systems
