📍 **Moscow, Russian Federation (open to relocation)**
English C1, Russian C2

PROFILE

System Analyst based in Moscow with 5+ years in IT, specializing in DWH and banking projects. Developing expertise in iOS (Swift). Open to relocation (EU, UAE, Georgia).

SYSTEM ANALYST DWH (QA TEAM), INNOTECH — JAN 2023 - PRESENT

- Managing weekly product releases, including scrum artifacts, documentation, and demos for business users, ensuring smooth delivery and stakeholder alignment
- Reviewing and approving new features, ensuring high quality and reliability of large-scale banking systems
- Created user manuals, process documentation, and conducted manual & automated testing using SQL, Selenium, and PyTest
- Developing, documenting, and maintaining internal tools using Python, AirFlow API, and Jira API, increasing team efficiency
- Leading onboarding sessions and presenting new features to developers, analysts, and testers, enhancing team adoption

IOS ENGINEER, GUILD OF DEVELOPERS — OCT 2024 - AUG 2025

- Led a team of 6 iOS developers on a non-commercial project "SIS", an emergency button service designed to help users navigate uncomfortable situations
- Designed and implemented the app architecture using MVVM, Delegate, Coordinators, and Singleton patterns
- Integrated the app with backend services via RESTful API, using Moya and Alamofire
- Conducted code reviews, provided architectural guidance, and recommended improvements for feature implementation
- Addressed bugs and incorporated client feedback to enhance user experience

SYSTEM ANALYST DWH, DIGITAL ECONOMY LEAGUE — AUG 2020 - DEC 2022

- Architected logical data models, documented DWH (UML, BPMN, Jira, Confluence), managed releases, and conducted manual & automated testing (SQL)
- Extracted, transformed, and loaded data from multiple sources into the corporate data warehouse (DWH)
- Temporarily led an Agile team and permanently managed the release process, including product demos, scrum artifacts, and user documentation, ensuring smooth delivery
- Conducted manual and automated testing of new features to maintain high quality standards

EDUCATION

- **NETOLOGY — JULY 2023 - OCTOBER 2024**
  iOS Developer, Intensive professional retraining program

- **MIREA (RUSSIAN TECHNOLOGICAL UNIVERSITY) — SEP 2017 - JAN 2023**
  Specialist (Engineer), Information and analytical security systems

SKILLS

Programming Languages: SQL, Python, Swift
